Product Description

Single sentence description

Comfy is the only occupant-facing, smart building software that delivers personalized comfort and productivity in the workplace.

Paragraph version

Comfy is the only occupant-facing, smart building software app that delivers on-demand, personalized comfort and productivity in the workplace. Comfy turns every employee's smartphone into a 'remote control for the office,' by plugging into existing building systems and using machine learning to automatically tune the building based on personal patterns and preferences. Comfy eliminates hot/cold calls, improves worker productivity, and saves energy on the side.

Company Description

Comfy is changing the way people interact with their workplaces. With deep roots in advanced computing and thoughtful user experience, our Oakland-based team of nerds dreams up unconventional software solutions for occupants and building operators alike.

Logo Guidelines

DO NOT skew logo

DO NOT stretch logo

DO NOT Alter the color of logo

DO NOT use outdated logo

Never use a Comfy logo from another source.
